

Group Assignment 1A

Analysis of 3rd-party Data Sharing and Data Tracking and of GDPR Compliance of Norwegian Web Sites

- When a front page loads, how many third parties does it contact, and in which countries do those servers appear to be located?
- When a site processes personal data, has it named a GDPR Article 6 lawful basis, and does the ICO tool agree?

Article 6(1) GDPR

Six lawful bases for processing personal data:

- Consent (a)
- Contractual necessity (b)
- Legal obligation (c)
- Vital interests (d)
- Public task (e)
- Legitimate interests (f)

Two questions and how we measured

Part 1 · Webbkoll

- 18 sites: cookies, requests, KeyCDN country
- One clean load per site; rank on Table 2 (20 Aug)
- KeyCDN = IP geolocation guess, not legal transfer proof

Part 2 · ICO

- Five sites, one purpose per run
- Notice vs ICO Word report (26 Aug 2026)
- Yes if notice and ICO agree
- Partial if consent is INCONCLUSIVE
- Tax, cookies, checkout and marketing are different purposes

What Webbkoll shows and key findings

What Webbkoll shows

Cookies, third-party requests and server country.

Many requests does not mean many cookies.

The screenshot shows a web browser window with the URL <https://tools.keycdn.com/geo/?host=2600:1901:0:25b9::>. The page is titled "IP Location Finder" and has a subtitle "IP LOOKUP OR IP ADDRESS LOOKUP WITH DETAILED IP GEOLOCATION DATA". On the left, there is a sidebar with categories: Web, Network, Security, and Other. Under "Network", the "IP Location Finder" tool is selected. The main content area shows a search bar with the IP address "2600:1901:0:25b9::" and a "Find" button. Below the search bar, there is a table displaying geolocation data.

LOCATION	
City	Kansas City
Region	Missouri (MO)
Postal code	64121
Country	United States (US)
Continent	North America (NA)
Metro code	616
Coordinates	39.1027 (lat) / -94.5778 (long)
Time	2026-08-28 08:06:03 (America/Chicago)

NETWORK	
IP address	2600:1901:0:25b9::
Hostname	2600:1901:0:25b9::
Provider	Google LLC

Key findings

- fotball.no: 113 requests, zero third-party cookies.
- 17 of 18 sites: zero third-party cookies. ikea.no had 2.
- lanekassen.no (1) and altinn.no (5): quietest e-government pages.
- document.no: widest country list (6 excluding Norway).
- News/media contacted the most. Government the fewest.
- babyshop.no: 45 on first scan, 101 on repeat scan.

Highest and lowest third-party requests

Highest five

1 fotball.no

Sport · 113 requests · 5 countries

2 worldofwarcraft.com

News/media · 90 · 4

3 document.no

News/media · 51 · 6 (widest list)

4 aftenposten.no

News/media · 48 · 5

5 klassekampen.no

News/media · 46 · 2

Lowest five

1 lanekassen.no

Government · 1 request

2 altinn.no

Government · 5

3 nrk.no

News/media · 7

4 spotify.no

News/media · 10

5 skiforeningen.no

Sport · 14

Part 1 · Figures 2 to 4

Third-party requests by site and sector

News/media is the highest sector. Government is the lowest.

ICO: one purpose at a time

One purpose per ICO run (26 Aug 2026). Yes if notice and ICO agree; Partial if consent is INCONCLUSIVE. Tax, cookies, checkout and marketing are different purposes.

Service	Purpose	ICO	Match
skatteetaten.no	Tax / folkeregister	Legal obligation + public task	Yes
skatteetaten.no	Optional cookies	Consent INCONCLUSIVE	Partial
netflix.no	Paid streaming	Contract	Yes
fotball.no	Name + club, 13+	Legitimate interests	Yes
document.no	Google Signals	Consent INCONCLUSIVE	Partial
babyshop.no	Checkout	Contract	Yes

Four match, two consent tests Partial

Four core purposes match the notice: tax, paid streaming, match history, checkout.

Two consent tests are Partial: Skatteetaten optional cookies and document.no Google Signals.

In both cases the notice claims consent, but the ICO marks consent INCONCLUSIVE.

Skatteetaten does not spell out clearly enough who processes the optional cookies and how to refuse them. document.no points users to Google ad settings; the ICO says that is not a clear, separate consent request, and Pluss terms bundle the notice.

skatteetaten.no: two purposes

Government

PURPOSE

Tax and National Population Register data

NOTICE

The law requires this processing. Opt-out is generally not possible.

ICO RESULT

Legal obligation and public task APPROPRIATE. Consent NOT APPROPRIATE.

Match: Yes

PURPOSE

Optional statistics cookies

NOTICE

Skyra, Matomo, Google Analytics and Siteimprove. The notice claims consent.

ICO RESULT

Consent INCONCLUSIVE. No basis APPROPRIATE.

Match: Partial

netflix.no: paid streaming

News / media

PURPOSE

Account and payment data for the paid subscription

NOTICE

EEA/UK privacy statement: contractual necessity to provide the service.

ICO RESULT

Contract APPROPRIATE. Consent marked likely invalid for this purpose.

Match: Yes

fotball.no: match history

Sport

PURPOSE

Player name and club on public match history (13+)

NOTICE

NFF publishes active players with club opt-out. Not a public authority.

ICO RESULT

Legitimate interests APPROPRIATE. Public task does not fit.

Match: Yes

FIKS membership is a different purpose and was not this ICO run.

document.no: Google Signals

News / media

PURPOSE

Google Signals advertising analytics

NOTICE

Article 6 is not named. Collection runs with Google login and ad personalization.

ICO RESULT

Consent INCONCLUSIVE. No basis APPROPRIATE.

Match: Partial

The choice sits in Google settings. Document Pluss terms also bundle the notice.

babyshop.no: checkout

Shopping

PURPOSE

Checkout and order fulfilment

NOTICE

Name, address, contact, order and payment to deliver goods. Sales terms = purchase contract.

ICO RESULT

Contract APPROPRIATE. Article 6(1)(b) is not labeled in the notice.

Match: Yes

Marketing and profiling stay a separate purpose.

What the report shows

We measured how much 18 sites contact others on load, and we checked whether five of them have a valid GDPR basis for one specific purpose.

Many sites reach out to many others without setting cookies.

Four of five ICO purposes match the notice.

In two places where the site claims consent, the ICO is not satisfied with how consent is formulated.
