

# ACIT4280 Privacy by Design - group submission

Internal overview for the group. Deadline 3 September 2026, 08:00. 40 points.

The submission has two parts. Part 1 is a Webbkoll analysis of 18 Norwegian-facing sites (table and graphics per sector). Part 2 is an ICO lawful basis assessment of five services. Deliverables: an English report (1000-1500 words plus diagrams) and a 20-minute presentation.

## 1. The two parts of the assignment

### Part 1 - Webbkoll

- 18 services: shopping, government, news/media, sport
- Per site: server country, internal cookies, external cookies, third-party requests, countries outside Norway
- Graphics per sector
- Highest and lowest values, plus deviations

### Part 2 - ICO lawful basis

- Five services from the Webbkoll list
- Find the privacy notice
- Run the ICO tool on one specific purpose
- Compare the notice with the ICO outcome
- Summarise in the report (Table 5)

Cookies, membership, checkout and advertising are different purposes. Each ICO run covers one purpose.

## 2. Files in the delivery

| File                    | Role                                                                                                              |
|-------------------------|-------------------------------------------------------------------------------------------------------------------|
| ACIT4280_1A_report.pdf  | Report submitted to Canvas (English, A4)                                                                          |
| ACIT4280_1A_report.html | Source for the report                                                                                             |
| figures/                | Figures 1-7: Webbkoll start, bar, pie and sector charts, klassekampen result, KeyCDN and Skatteetaten privacy hub |

| File                          | Role                                             |
|-------------------------------|--------------------------------------------------|
| ACIT4280_1A_presentation.pptx | 20-minute presentation                           |
| Six ICO .docx files           | Official ICO reports as documentation for Part 2 |

ICO\_5sites\_worksheet.html and oppgave-1a-ico-svar.md are working notes and are not part of the Canvas delivery.

### 3. Part 1 - Webbkoll

Method: English Webbkoll, one Chromium visit, no add-ons, Do Not Track off. Server country = KeyCDN country. Norway is dropped from the country list. Table 2 is the first measurement. Table 3 is a repeat measurement and does not replace Table 2.

- **Highest requests (Table 2):** fotball.no 113, worldofwarcraft.com 90, document.no 51, afterposten.no 48, klassekampen.no 46.
- **Lowest:** lanekassen.no 1, altinn.no 5, nrk.no 7, spotify.no 10, skiforeningen.no 14.
- **Only ikea.no** had third-party cookies (2), after redirect to ikea.com.
- **fotball.no** has the most requests and still zero external cookies. Request volume is not cookie volume.
- **document.no** has the widest first country list (6 countries excluding Norway).
- **Sector:** news/media highest, government lowest, shopping in between. babyshop.no rises to 101 on the repeat measurement; ranking stays on the first measurement (45).
- **Method example:** klassekampen.no, 20 Aug 2026 12:36:46 UTC: 4 first-party cookies, 0 third-party cookies, 56 requests.

Webbkoll does not read the privacy notice or decide Article 6. That is Part 2.

### 4. Part 2 - ICO results

Tool: ICO Lawful basis interactive guidance (updated 14 April 2026). One specific purpose per run. Official Word reports dated 26 August 2026. Recognised legitimate interest did not fit any of the five purposes.

Each ICO run covers one purpose. Tax and optional statistics cookies are two separate runs.

| Service                       | One purpose                                   | Left out of the run | Notice                                               | ICO                                             | Match |
|-------------------------------|-----------------------------------------------|---------------------|------------------------------------------------------|-------------------------------------------------|-------|
| skatteetaten.no<br>government | Identity, income and tax data for tax and the | Optional cookies    | Required by law. As a rule, opt-out is not possible. | Legal obligation<br>APPROPRIATE.<br>Public task | Yes   |

| Service                           | One purpose                                                         | Left out of the run                                    | Notice                                                                                        | ICO                                                                            | Match          |
|-----------------------------------|---------------------------------------------------------------------|--------------------------------------------------------|-----------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|----------------|
|                                   | population register                                                 |                                                        |                                                                                               | APPROPRIATE.<br>Consent NOT APPROPRIATE / likely invalid.                      |                |
| skatteetaten.no<br><b>cookies</b> | Optional statistics cookies in the notice                           | Tax and population register                            | Consent according to the cookie page.                                                         | Consent INCONCLUSIVE.<br>No basis APPROPRIATE.                                 | <b>Partial</b> |
| netflix.no<br><b>news/media</b>   | Account and payment for a paid streaming subscription               | Ads, recommendations, marketing                        | EEA/UK: contractual necessity to provide the service to members.                              | Contract APPROPRIATE.<br>Other bases NOT APPROPRIATE.                          | <b>Yes</b>     |
| fotball.no<br><b>sport</b>        | Publishing name and club for active players 13+ (match history)     | FIKS membership (different purpose, not this ICO run). | Match history in the public interest, opt-out via club.                                       | Legitimate interests APPROPRIATE.<br>Consent NOT APPROPRIATE / likely invalid. | <b>Yes</b>     |
| document.no<br><b>news/media</b>  | Google Signals / advertising analytics                              | Document Pluss, comments, necessary cookies            | Article 6 is not named. Signals is said to run only with Google login and ad personalisation. | Consent INCONCLUSIVE.<br>No basis APPROPRIATE.                                 | <b>Partial</b> |
| babyshop.no<br><b>shopping</b>    | Name, address, contact, order and payment for purchase and delivery | Newsletter/profiling. Cookie categories.               | Terms point 1 is a purchase contract. Article 6(1)(b) is not labelled.                        | Contract APPROPRIATE.<br>Other bases NOT APPROPRIATE.                          | <b>Yes</b>     |

## Main findings in Part 2

1. Four of five core purposes match the notice: law for tax, contract for Netflix and Babyshop checkout, legitimate interests for NFF match history.
2. Two consent tests are Partial: Skatteetaten cookies (the request does not fully name controller, purpose and type) and document.no Google Signals (the request is not separate from the terms).

## 5. Report structure

---

1. Introduction: two research questions.
2. Method, Tables 2-3, Figures 2-4 (ranking, share and sector) and highest/lowest.
3. Method example: klassekampen.no (Figures 1, 5 and 6).
4. Part 2: Table 5, two purposes on skatteetaten.no (Figure 7), and the document.no deviation.
5. Conclusion repeating highest/lowest and ICO match.

Report body text stays within 1000-1500 words. Tables and figures count as diagrams, not toward the word count.
